

The Faculty of
Intensive Care Medicine

TEACHING ADULTS

OBJECTIVES

- ▶ Understand what is meant by learning and teaching
- ▶ Identify requirements for successful adult learning
- ▶ Understand the structure of a training sequence

What is learning?

How do adults learn?

Requirements for successful adult learning?

What is teaching?

Teaching CPR + AED

PREPARE

OPEN

FACILITATE

DELIVERY OF SKILLS TEACHING

Teach it	Teach the concept and the course standard
Facilitate it	Get all candidates involved in trying the skill
Assess it	Confirm the course standard has been reached (this might be possible within the facilitation stage)

Encourage peer-to-peer learning. This may be less of a feature within our course than in postgraduate courses where, for example, experienced emergency care staff can add significantly to the learning of others, including the instructors – I learn when I teach.

DELIVERY OF SKILLS TEACHING

- ▶ **Teach it** Teach the concept and the course standard
- ▶ **Facilitate it** Get all candidates involved in trying the skill
- ▶ **Assess it** Confirm the course standard has been reached
- ▶ Encourage peer-to-peer learning

ANY QUESTIONS?

SUMMARY

'There are no secrets in teaching resuscitation effectively'

- ▶ Preparation and planning of a positive experience
- ▶ Prepare - Open - Facilitate - Close
- ▶ Staged approach: Teach it - Facilitate it - Assess it
- ▶ Questions, summary, closure

The background of the image is a soft-focus bokeh effect. It consists of numerous out-of-focus light circles in warm tones, including shades of orange, yellow, and light pink, set against a muted, dusty blue background. The light spots vary in size and brightness, creating a dreamy and textured appearance.

**A POSITIVE EXPERIENCE LEADS TO
EFFICIENT LEARNING**
