RMD faculty

Run the check-in station, watch the night, look after anyone referred

RMD Birmingham
Assessment night

Not here	Arrived	Collected	Being assessed	Assessed
On the list, not checked in	Checked in, waiting for runner	Runner has them, going to room	Assessor has taken them on	Result saved

CHECK-IN STATION

1. Phase 1 hub: **Assessment night**, then **Check-in station**. The desk location is confirmed at the briefing.
2. Check the candidate's Student ID first. Then tap their name in the grid. They show **Arrived**. A bar offers **Undo** for a few seconds if you tapped the wrong person.
3. The grid shows people due in the next hour plus anyone late, alphabetical by surname. Anyone else: type their name. The tabs are Due now, Not here yet, Arrived, Collected, Everyone and RMD faculty.
4. Retests and people with no slot sit in their own group at the top. Check them in, then tap **Collected** when you send them to an assessor.
5. A red **See RMD faculty** means not eligible tonight or no slot. Sort it out with the Director before checking them in.
6. Directors: the **Check-in required tonight** switch is at the top. Turn it on once the station is running so assessors can only pick people who have been collected.

WATCHING THE NIGHT

- The **RMD faculty** role on assessment night has three jobs: **Retest pool** and the two big screens. Check-in, runner and assessing are separate roles. Assessment allocation is done in week 2 of teaching nights.
- **Retest pool** lists who waits for a second sit or later. Step 5 there sends the end-of-night emails: read and edit each draft, and tick only people RMD faculty have seen face to face.
- **Flow screen** (big screen, never shows names): one dot per candidate, coloured and numbered by attempt (1 blue, 2 amber, 3 pink, 4 green). It moves through Not here, Waiting, Collected, Being assessed, then Passed or referred. A dashed ring means a runner could not find them. The bottom panel shows RMD faculty counts.
- **Results screen** shows pass and refer counts by room.

AFTER A REFERRAL

- On the check-in station, the **RMD faculty** tab lists names: referred tonight (retest to arrange), the rest of the retest list, and anyone not passed at attempt 2, 3 or 4. The **Retest pool** page has the next steps for each group and a Copy note button. Nothing is emailed from the hub.
- When a referred candidate reaches the atrium hub, open the **Retest pool** page, tap **Confirm retest + pick room** and choose a retest room (no time needed). **Change room** moves them later. They show on the Flow screen as attempt 2, and the runner and assessor see the room. The room is a guide: an assessor can take them for a different room.
