Assessment night: what happens to a candidate

One candidate, left to right. The coloured tag on each box says who does it. The coloured strip underneath is the state you will see on the Phase 1 hub.

WELCOMER

1 Arrives

Meets them in the foyer and asks their assessment time. Too early? Come back 15-20 minutes before. Then escorts them to pre-assessment teaching.

Not here

→

RMD FACULTY

2 Check-in

Checks their Student ID, then taps their name at the check-in station.

Arrived

→

PRE-ASSESSMENT TEACHING

3 Practise

Runs through both algorithms as if it were the assessment, and answers questions.

Arrived

→

RUNNER

4 Collect

Calls out the room name and the student's name, taps Collect and walks them to the room.

Collected

→

ASSESSOR + ACTOR

5 Assessment

Assessor taps Start assessment, assesses BLS + AED and first aid, then saves the result. The actor plays the casualty and the helper.

Being assessed → Assessed

Result saved. Where next depends on the result:

PASSED

Free to go home

Runner tells them they are free to go. Done.

REFERRED AT A FIRST SIT

1. **Runner** directs them to the **Student Faculty hub** in the atrium.
2. **Student Faculty** give further details and directions.
3. **Resit instructor** goes through the failed part 1-on-1 in the retest form (confirms with the candidate).
4. **Student Faculty** allocate a resit room.
5. **RMD faculty** check them in again for attempt 2.

↻ **Back to step 4 for the second sit, with a different assessor**

NOT PASSED AT A SECOND SIT OR LATER

Not retested tonight

Runner takes them to **RMD faculty**, who explain the next steps.
